

## Product Features:

- Lightweight, Portable and Wireless.
- Antiviral solution included that has been proven to successfully eradicate COVID-19.
- 45-60 mins of use after 3 hours of charge.
- Quick and simple to use.

The Fluid Science FO-200 Ultra Low Volume Fogger is a lightweight and portable system that is ideal for both surface and area disinfection. The FO-200 has been specially designed to produce up to 40min. of continuous fogging time with only 3 hours charging time. Features include a 2 liter (0.5 Gal) tank, an advanced 12V DC Motor, one speed control with an adjustable droplet size of 5-50 microns.

Thanks to its compact design, this fogger is ideal for spraying in smaller spaces including domestic properties as well as food preparation areas, car valets and offices. In addition the power can be halved, reducing noise levels, which makes it ideal for hospitals, nursing homes and schools.

### Solution?

Regular fogging with a approved solutions such as the Fluid Science Antiviral Surface Disinfectant will help prevent the cross-infection of viruses such as MRSA, Coronavirus (human and feline), Strangles, Ringworm and many more.

## Product Specifications:

Motor	350W, 110-240V, 50-60Hz
Tank Capacity	2 Litre
Output Flow Rate	20-40 LPH, 5-10 GPM
Droplet Size	5 - 50 microns
Empty Weight	3.2kg
Dimensions	47 x 24 x 20 Cm
