- **Saves time and effort** - on a fixed sanitisation routine
- **Completely user friendly** - zero training required
- **Dual Action formula** - 99.99% effective against viruses & bacteria
- **Area of effect** - Covers approximately up to 100m³

**ERADICATES VIRUSES
IN 2 MINUTES**

**DISINFECTS
THE ENTIRE ROOM**

Introducing the **GoFog**, the latest antiviral sanitiser technology from **Fluid Science**.

This product is a simple, all in one toolkit that allows the operator to quickly disinfect a variety of rooms, vehicles, food preparation areas, gyms, offices and many more.

The total release cannister disperses our **fully laboratory tested, coronavirus approved** liquid. A mist of our antiviral solution will then land on all surfaces in the surrounding area, disinfecting the target zone.

**KILLS
99.99%**
of viruses including
CORONAVIRUS
